Junior Stocks and Shares Individual Savings Account Regular Premium: Future World ESG Multi-Index Fund Transport Friendly Society Limited (www.tfs.uk.com)

email info@tfs.uk.com for more information

Transport Friendly Society is authorised by the Prudential Regulation Authority and regulated by the Financial Conduct Authority and the Prudential Regulation Authority

What is this product?

Objectives: The product is an insurance-based Junior Stocks and Shares ISA (JISA). It allows investments to be made in the Transport Friendly Society Stocks & Shares ISA, subject to qualifying conditions laid down by H.M. Revenue and Customs (HMRC) regulations.

The proceeds of the investment will be free from Income and Capital Gains taxes under current HMRC ISA regulations.

The Transport Friendly Society Stocks and Shares ISA aims to:

- provide an easy tax efficient method of investing your child's money; and
- maximise mid to long-term capital growth by investing in stocks and shares.

Where is the money invested? The money is invested in the Transport Friendly Society's Future World ESG Multi-Index Fund. The investment objective of this Fund is to provide a combination of growth and income within a pre-determined risk profile. The Fund is invested in a risk-profile targeted range of index tracker funds and individual investments including property.

The contributions paid on behalf of your child are used to purchase units in the Fund. The investment performance of the Fund will determine the value of your child's JISA.

The value can go down as well as up and the proceeds will depend on the investment performance of the Fund, which cannot be predicted. Growth cannot be guaranteed, and you may receive back less than the amount paid in and the amount illustrated at the outset.

How can the performance be tracked: A statement will be issued annually which will show the value of your child's JISA plan, or you can also contact us at any time to ask for a valuation.

A statement will be issued annually which will show the value of your ISA plan, or you can also contact us at any time to ask for a valuation.

You can also access the value of your policy on the website at: www.tfs.uk.com

The unit price is available on the website at: www.tfs.uk.com

Intended retail investor: The Junior TFS Stocks and Shares ISA is available to anyone aged under 18 who was not entitled to a Child's Trust Fund, who is resident in the UK, or a dependent of a Crown employee (or their spouse/civil partner) working overseas.

The Junior TFS ISA must be set up by the child's parent or legal guardian but anyone can contribute to it.

How much can be invested on behalf of the child: Contributions can be made into this JISA up to the HMRC ISA contribution limit in each tax year. The current limit can be found at www.tfs.uk.com. However, if the child has more than one type of ISA the limit applies to all contributions. It is anticipated that this limit will increase each year in line with Inflation.

The minimum contribution is £30 per month and contributions can be stopped or changed at any time without penalty. The child can only hold one stocks and shares JISA and one cash JISA.

Insurance benefits: If the child dies, 101% of the value of the JISA on the date of death will be paid to the child's estate.

Maturity: This product matures when the child reaches age 18. The child should aim to invest for no less than five and ideally for ten years. You should bear in mind that over the mid to long term (5-10 years and over), inflation is likely to erode the purchasing power of the investment.

Lower risk

Higher Risk

The Summary Risk Indicator (SRI) assumes the child keeps the product for 10 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less than you paid in. The summary risk indicator is a guide to the level of risk of this product compared to other products. We have classified this product as 3 out of 7 which is a medium low risk class. This rates the potential loss from future investment performance at a medium low level. The risk category is not guaranteed and may shift over time. On closing the child's Junior TFS Stocks and Shares ISA the child would receive the value of units at the next price valuation. On the child's death, you would receive 101% of the current value of units. The risk indicator is based on historical data and may not be relied upon to gauge the future risk profile of the product.

What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs. The amounts shown here are the cumulative costs of the plan itself, for three different holding periods. They include potential early exit penalties. The figures assume that you invest £1,000 each year. The figures are estimates and may change in the future.

Costs over Time

Investment £1,000 annual premium	If you cash in after 1 year	If you cash in after 5 years	If you cash in after 10 years

How long should I hold it and can I take the money out early?

The recommended minimum holding period for the Junior TFS Stocks and Shares ISA is 10 years.

Before the child reaches 18, the JISA may be transferred by the registered contact to another Junior ISA manager at any time.

Can I change my mind?

Following receipt of acceptance of the application, you will be given 14 days in which to change your mind. Upon receipt of your Cancellation Form, we will cancel the child's ISA and refund you your investment in the Junior TFS ISA **SUBJECT** to a deduction of the amount (if any) by which the value of your investment has fallen at the time when your Cancellation Form is received by the TFS as explained in the Cancellation Form.
